For a hundred and twenty years God's servant, Noah, preached to the people telling them to stop doing bad things, but the people would not listen. God then showed Noah how to build a big boat called the "Ark".

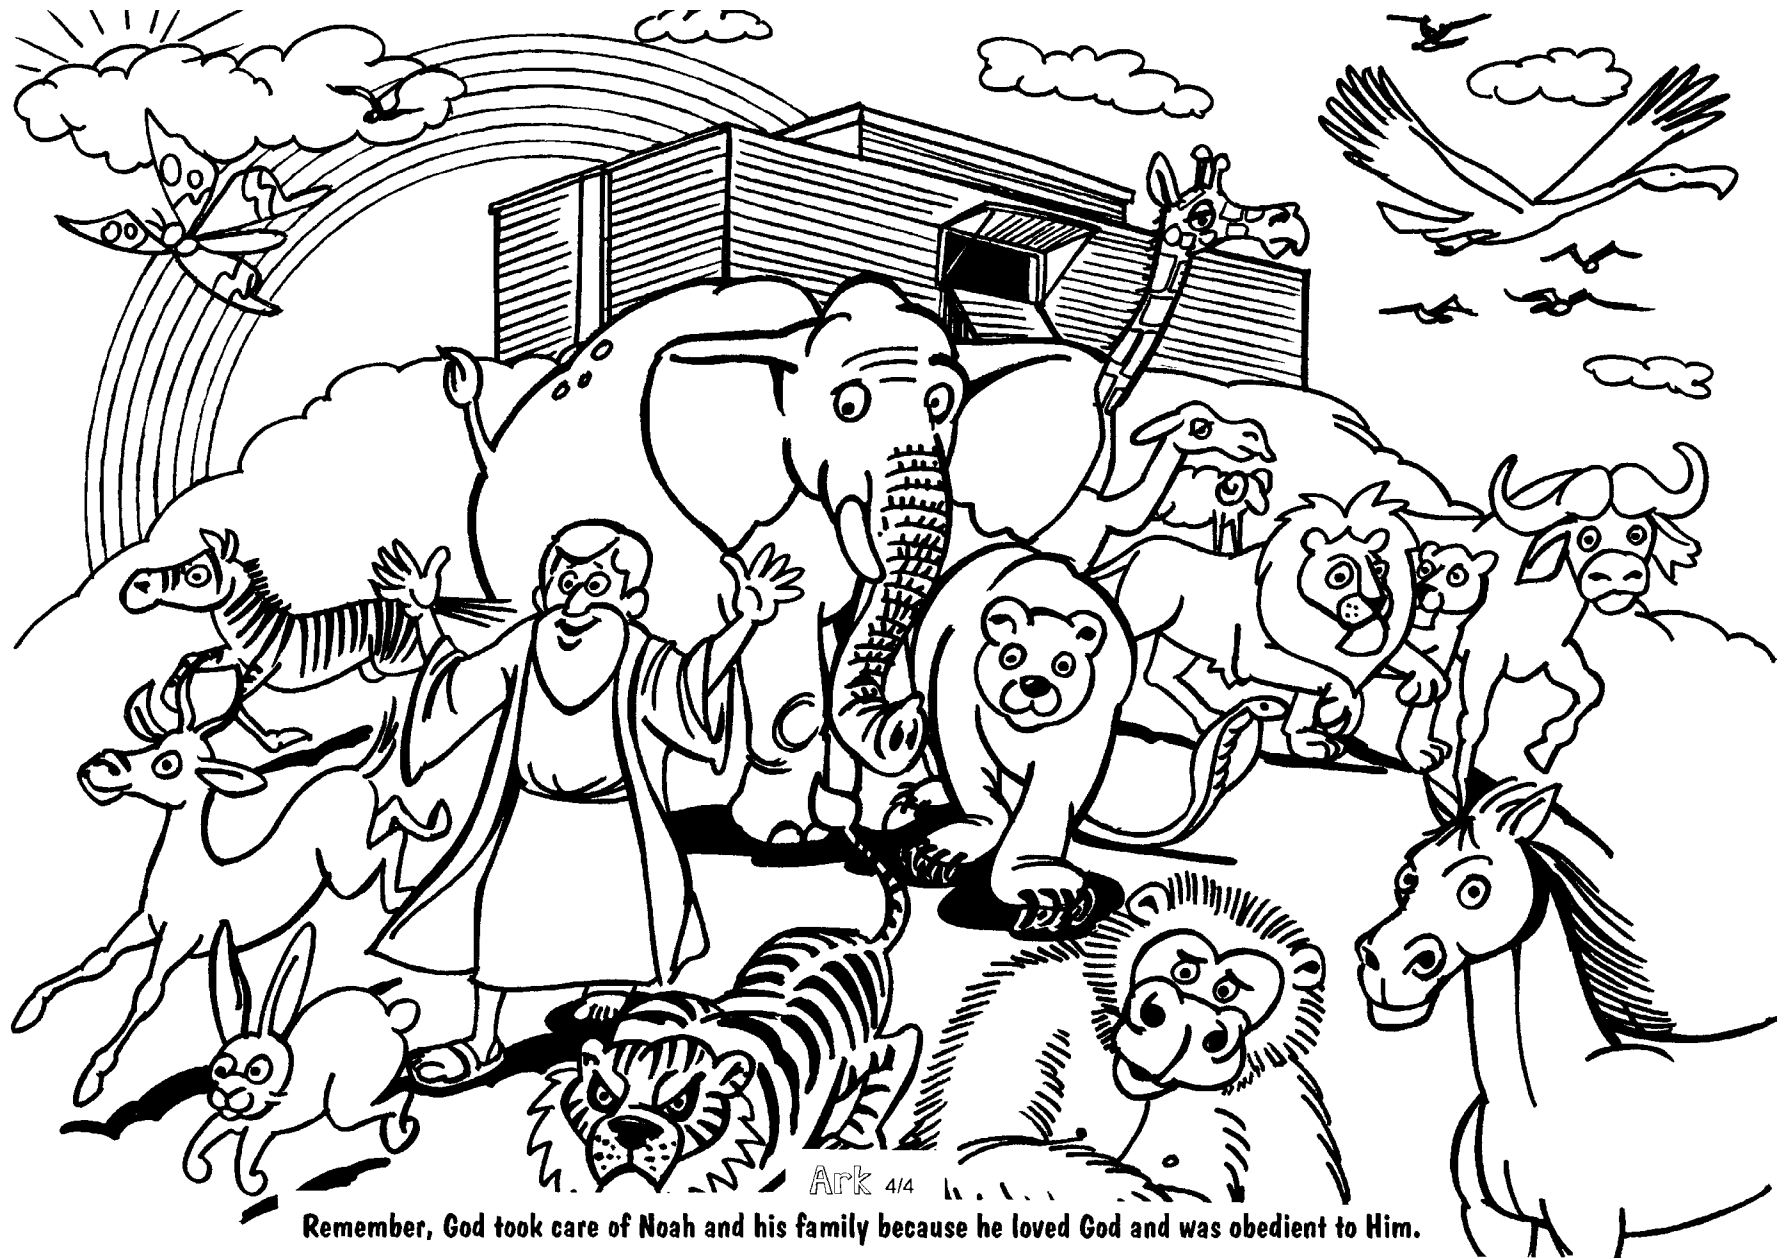

Ark 2/4

**When the Ark was completed, God called Noah and his family and some of all the animals into the Ark.
When everything was ready, God closed the door.**

It then rained for forty days and nights and the whole earth was covered with water. All the people, except the eight people in the Ark, were destroyed.

Remember, God took care of Noah and his family because he loved God and was obedient to Him.
