Today there are many people who have a good job, their own house, car, television and many other things. People today go to school, college and university. People read, write and know a lot of things. We can fly to the moon and far beyond that. We have fast cars, computers and aeroplanes.

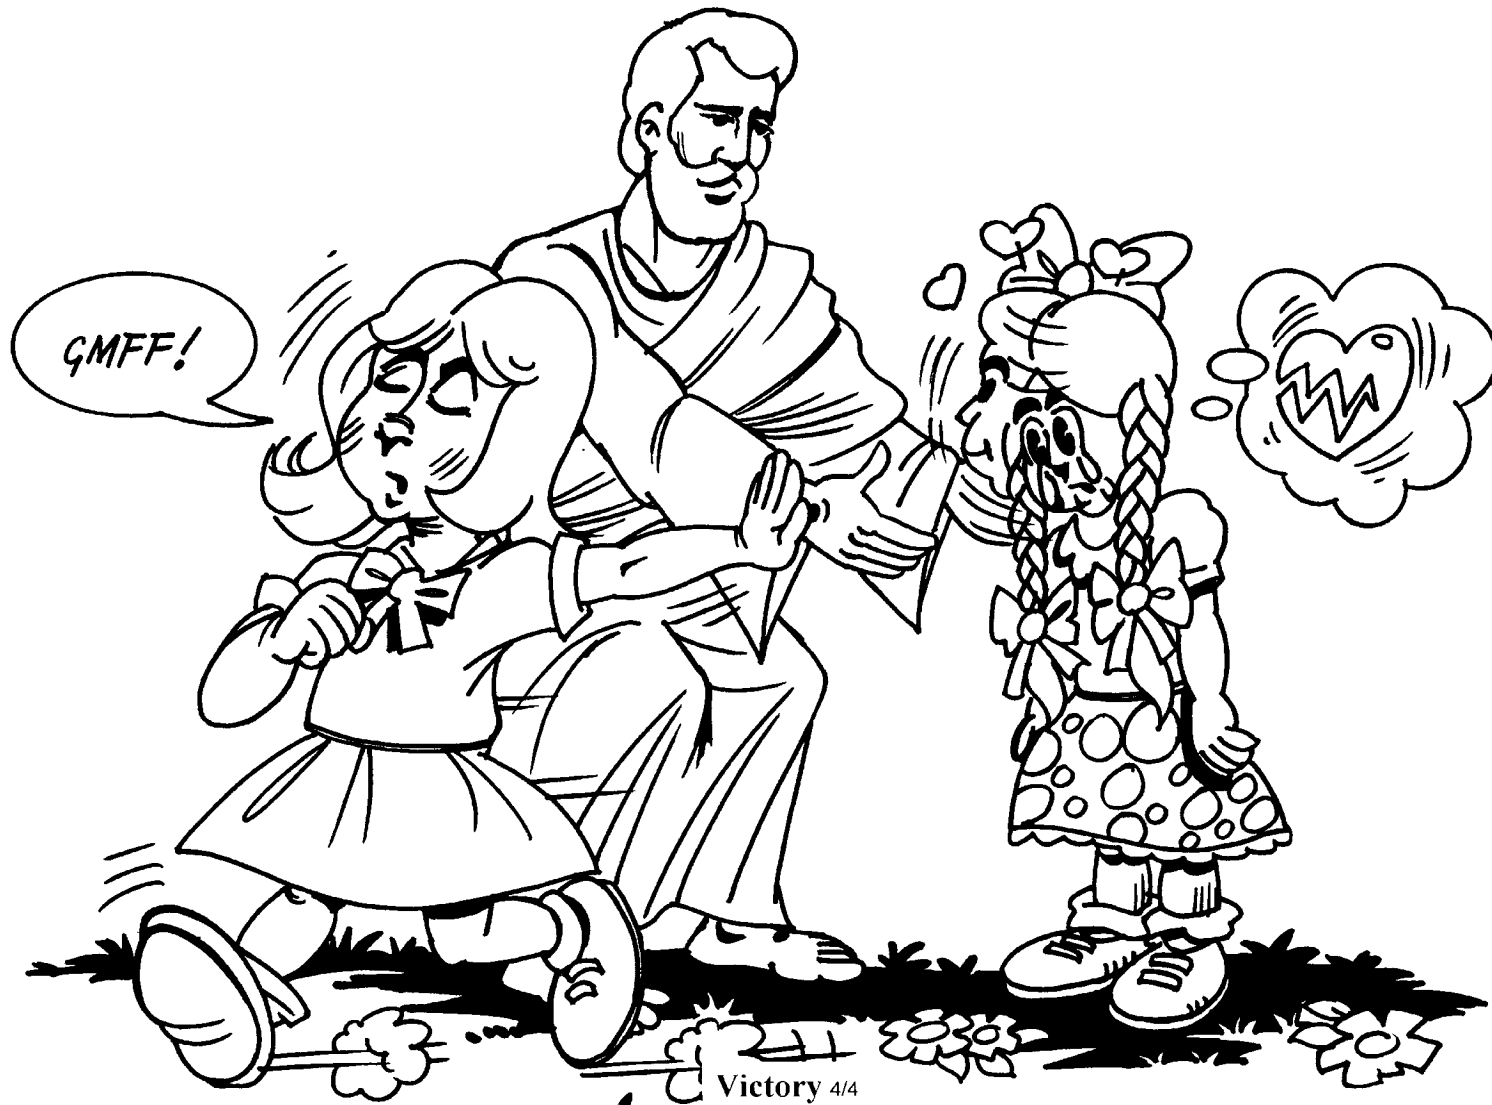

Victory 2/4

With all these things most people have come to believe they are rich and do not need God. The Bible warns us that the church will also come to think of itself as rich and in need of nothing. God tells us to be careful because the church, in His own eyes, will not be rich but will become wretched, miserable, poor, blind and naked.

Victory ^{3/4}

God tells us that we must turn back to obeying and following Him alone. We must not look to other people and do what they do. To be true Christians, we must do what God tells us to do in His Word. People change. They change jobs, houses, cars, friends and even their husbands or wives! Friends, God is great. He loves us and wants the very best for us.

Victory 4/4

God does not change with every new fashion. He never changes. He is the only One we can always trust. God says He will never leave us. Remember, Jesus is the friend and brother that will always be at your side if you will let Him. This is why we must always remember to trust God and His Word alone, no matter what other people say.
